Attn: Purchasers,

Re: The Michael Thomason Band

I have had that distinct pleasure of working with the Michael Thomason and his band since back in 1987. That first big concert was for the Napa County Fair and Michael Thomason was the opening act for Emmylou Harris & the Hot Band. Much to my surprise, most of the concert goers were there to see The Michael Thomason Band.

Throughout the years I have used Michael's services for a variety of events ranging from Nightclubs, Fundraisers, Winery and Corporate events. Recently, I had them play for my own Annual BBQ that I hold for family & clients (a tough audience, to say the least).

I have always found The Michael Thomason Band to be reliable, punctual and have a great array of material, pleasing the crowd with a long list of favorites as well as some fine original material.
